RISK MaPP

IN PHARMA INDUSTRIES

Speaker: Mr. Julian Wilkins

The speaker is a **Vice President at PharmaConsult Us Inc.** He is also the Adjunct Professor of Stevens Institute of Technology. He has specialty in all aspects of Risk, Hazard and Exposure of People and Patients in the Pharmaceutical Industry, with particular emphasis on Exposure Control measures. Deeply involved in the ever changing regulatory aspects, he is a founding member of a team of world class experts attempting to bring a science and risk based approach to the manufacture of pharmaceutical compounds.
