

## Nanotechnology Seminar Series – Fall 2011

Seminars are Wednesdays at 11 am in BABBIO 122.

Date	Title/Speaker	Sponsor/Host
9/14/11	<b>Tissue Engineering by Integrating Stem Cells and Polymeric Biomaterials</b> Jeremy J. Mao, Columbia University	Nanotechnology Graduate Program (NGP) Professor Woo Lee, x8307
9/21/11	<b>Chemomechanics of Advanced Energy Storage Materials</b> Bo Yang, University of Texas at Arlington	CEOE Department Professor Frank Xu, x8711
9/28/11	<b>Network Formation in Carbon Nanotube Composites: Understanding the Impact of a Thermosetting Matrix</b> Meisha Shofner, Georgia Tech	ME Department Professor Frank Fisher, x8913
10/5/11	<b>No seminar: Stevens Graduate Student Research Conference</b>	-----
10/12/11	<b>No seminar: Presidential Inauguration week</b>	-----
10/19/11	<b>Kelvin Probe Force Microscopy for in situ Electrical Characterization of Organic Solar Cells</b> Guangyong Li, University of Pittsburgh	ME Department Professor Yong Shi, x5594
10/26/11	<b>Materials for Energy Storage</b> Dr. Jun Liu, Pacific Northwest National Laboratory	CEMS Department Professor Woo Lee, x8307
11/2/11	<b>SERS Studies with Templated Self-assembly Systems</b> Oded Rabin, University of Maryland	CEMS Department Professor Henry Du, x5262
11/9/11	<b>Scientific Misconduct: the good, the bad, and the ugly</b> James Harrington, Rutgers University	Nanotechnology Graduate Program (NGP) Professor Henry Du, x5262

Coordinator: Prof. Frank Fisher, Mechanical Engineering, x8913
